ICS 4U1/3 1 Term Project Teams

Team Selection + Duties & Team Roles

Form a team of students (see composition below). Remember, **you** select your partner(s)!

Composition of Teams:

You must select your own teams. Inform your teacher by the end of class **May 6**.

Period 1   1 team of 2
Period 3   2 teams of 3 **OR** 1 team of 2 and 1 team of 3
Period 4   2 teams of 3 **OR** 1 team of 2 and 1 team of 3 **+** 1 individual

You, as a team, must decide who will assume the following roles within your project.

Team Leader: Is responsible for:

- team organization
- meeting deadlines
- discussing team personnel issues with the teacher
- equal distribution of workload
- contributing to development of the project as specified by the task division
- submission of:
    - Monday Plans
    - Friday Reports
    - Versions
    - Final Report

Team Spokesperson: Is responsible for:

- discussing software requirements with the client
- questions regarding the software development with the client
- questions regarding the planning criteria with the client
- contributing to development of the project as specified by the task division

Team Member (team of 3 only): Is responsible for:

- contributing to development of the project as specified by the task division

Project Skills

Consider your potential partners carefully. Selecting someone with the same skill set may not be the best decision. Here is a list of skills you may need during your project:

- programming
- problem solving
- graphic design
- creativity
- organization
- testing and debugging
- planning (UML)
- oral communication
- written communication
- leadership
